Jennifer Lichtensteiger

Environmental Analyst

Jennifer Lichtensteiger joined NEIWPCC's Wastewater Division in 2018, where she coordinates and implements training programs for wastewater operators across the Northeast.

Ms. Lichtensteiger manages NEIWPCC's wastewater training schedule, including course selection, catalog production, course information distribution, and venue management. She also leads NEIWPCC's workgroups and Commissioners to identify and address regional priorities for residuals and for the National Pollutant Discharge Elimination System permit program. In addition, she oversees the Commission's summer Youth and the Environment Programs based in Lowell and New York City.

Ms. Lichtensteiger is an experienced environmental professional with more than twenty-five years of experience in the research, design, management, permitting, and implementation of environmental remediation projects. She has previously held environmental consulting positions, and is experienced with design and construction of sediment, soil, and groundwater remediation projects. Before joining NEIWPCC, she developed and implemented training to facilitate the exchange of information and provide a documentation tool for the Loss Prevention System™, a behavior-based safety system. Ms. Lichtensteiger completed research investigating the oxidation of the gasoline additive methyl tertiary-butyl ether in groundwater using hydrogen peroxide catalyzed by ultraviolet light.

Education:

M.S., Civil Engineering, University of New Hampshire

B.S., Interdisciplinary Engineering and Management, Clarkson University

Memberships:

New England Water Environment Association

Water Environment Federation

Massachusetts Water Pollution Control Association
