# James Plummer

## *Environmental Analyst*

James Plummer joined NEIWPCCC's Water Resource Protection Division as an Environmental Analyst in 2017. He manages the Nonpoint Source workgroup and organizes the annual Nonpoint Source Conference that NEIWPCCC holds every spring in collaboration with a host state.

James coordinates the National Nonpoint Source Training Workshop for the EPA. He also provides oversight for NEIWPCCC staff working in Maine's Drinking Water program.

Prior to joining the NEIWPCCC staff full time, James worked for two summers as the coordinator for the Commission's Youth and the Environment Program. Before that, he was Assistant Director of Academics for Just Grow, LLC.

James serves on the New England Water Environment Association's Innovation Committee, Young Professionals Committee, and Watershed Management Committee. Additionally, he is a member of the Association of Clean Water Administrator's 319/Nonpoint Source Workgroup.

### **Education:**

B.S., Biology, University of Tampa

### **Professional Certification:**

Association of Clean Water Administrators  
New England Water Environment Association  
Water Environment Federation
