

New England Wetlands Program Development Grant Webinar Series

Improving the Wetlands Technical Review Process

New England Interstate Water Pollution Control Commission (NEIWPC) is pleased to invite you to attend the **third and last webinar presentation** in our **spring** New England Wetlands Program Development Grant Webinar series. This webinar is scheduled for **April 9, 2015 at 1:30 p.m.** Below you will find details about the selected presentation.

Leaning the NH DES Wetlands Technical Review Process

Mary Ann Tilton, *New Hampshire Department of Environmental Services (NH DES)*

Through an EPA grant, NH DES used LEAN techniques to analyze the existing wetlands technical review process. During the process, DES consulted with wetland scientists and state and federal partners to identify ways to improve science-based decision making. The resulting information and lessons are being used to make improvements to the GIS protocols, wetlands review process and coordination, DES rulemaking, and to the process overall.

Date & Time

**Second Thursdays of each Month:
Thursday, April 9, 2015
1:30-2:30 PM**

- > [WebEx Access](#)
- > Password: wetlands
- > Dial-In: 1-866-777-5715
- > Participant Code: 996 353 35
