

11TH U.S. SYMPOSIUM ON HARMFUL ALGAE

CALL FOR ABSTRACTS IS NOW OPEN!

TOPIC AREAS

- Training Session or Workshop
- Mitigation & Control
- Monitoring
- Bloom Dynamics & Drivers
- Cellular & Molecular Technology
- Method Validation & Reference Materials
- Microbial Interactions
- Climate Change & Resiliency
- Food Web Dynamics & Ecosystem Function
- Biochemistry & Ecophysiology
- Predictive Models & Forecasting
- GIS & Remote Sensing Applications
- Nutrients & Biogeochemistry
- Toxin Biosynthesis, Pathways, & Effects
- Toxin Detection
- Taxonomy & Genomics
- Engaging Communities & Stakeholders
- Public Health
- Socioeconomic Impacts
- Fish & Shellfish-Killing Species
- Impacts to Wildlife & Domestic Animals
- Multi-stressor Research Studies
- HABs Across the Freshwater-to-Marine Continuum

We are pleased to announce that the 11th U.S. Symposium on Harmful Algae will be held on **October 23-28, 2022, in Albany, New York, at the Hilton Albany**. Local coordination is being led by NEIWPC, New York State Department of Environmental Conservation, and U.S. Geological Survey with support from the U.S. National Office for Harmful Algal Blooms at the Woods Hole Oceanographic Institution.

The theme for the upcoming symposium is "**Science to Support Solutions from Shore to Shore**". From freshwater to marine systems, the prevalence of harmful algal blooms (HABs) is a national environmental challenge, and solutions are needed. Celebrating this event in New York – the only state with Great Lake shorelines, marine coasts, and the diverse range of ecosystems between these extremes – creates an ideal setting to discuss progress in understanding algal bloom ecology and the solutions necessary to prevent and reduce HABs.

Please **submit your abstracts** by **May 6, 2022**, to be considered for a presentation at the 11th U.S. Symposium on Harmful Algae.

NEIWPC COVID-19 POLICY

NEIWPC is committed to providing an event that keeps all participants as safe as possible and promotes the well-being of our community. NEIWPC requires all individuals who participate in the 11th U.S. Symposium on Harmful Algae to be fully vaccinated in order to attend. Please [visit our website](#) for more info.
