

Introduction to the Moving Sites to Closure Task Group

Tom Schruben, US EPA OUST

National Tanks Conference

September 15, 2022

The
Underground
Storage Tank
Cleanup Program
in Three
Numbers

500,000 releases closed since 1989

60,000 releases currently open

**200,000 X ___% releases expected
from currently operating facilities**

MStC Task Group

ASTM Committee - E50.04

64 members looking for solutions for stalled sites

Regulator	27%
Owner	16%
Insurer/Fund	6%
Consultant	47%
Academic	4%

Questions to ask today, however the site got to where it is now

Is the release still a threat?

Yes: Is the remediation making adequate progress? Can I improve it?

No: Can I demonstrate that the site is safe to close?

Don't Know: What data do I need to understand current threat?
