

## NWGLDE Fall Meeting September 15-16, 2022 (NTC - Pittsburgh, PA)

Don Taylor (Chair) participated remotely.

### 1) Vendor Presentation

Craig Wilcox - Overview of KWA Methods & Equipment used to perform evaluations.

Dave Eddington – Review white paper for piping bulk modulus for different piping types and not lengths.

### 2) Old Business

Remanufactured Sensors – discussion

Workgroup agreed to list sensor using specific tank monitors and software version.

Need UL listing – disclaimer not responsible for safety and warranties, only for functionality.

Missing minutes for Fall 2020, Spring 2021 & Spring 2022.

### 3) Administration

Need to contact NEIWPC to move evaluations to their website and update pages.

### 4) Team Leaders

**1- Wesley McCain – ATG, VTT and NVTT:** OPW Nano Split into 2 listings.

**2 - Shaheer – CITLDS:** Nothing New

**3 - Omah – AST & bulk modulus:** Nothing new

**3 - Greg (Not present) – LLD:** Dover ELLD status unknown

**5 - Shaheer (Not present) - SIR Method**

**6 - Tim – IM:** PMP Corp listed for specific consoles and software versions. They need to evaluate it with new Veeder Root console which they haven't done.

Need to draft policy that vendors need to evaluate with equipment being used.

Vendors need to document intellectual rights UL Certification if evaluated with European Standards.

**7 - Mike- Secondary Containment Test Methods:** DPLeak – Wants to change procedure in testing.

Need to re-evaluate with new procedures if they want to use them.

### 5) Other Business

Proposed Fall 2023 Meeting at NACs in Atlanta Oct. 3-6, 2023 & Spring 2023 meeting in Kansas City with visit to KWA.

Tim- Water intrusion. Entrained water with release detection. Need to address with ATG in tank method. Do we need vendors to re-evaluate methods for entrained water?

Fill vacant position. Oma is drafting a letter to send to ASTWAMO.

### 6) Adjourn.
