

## Title 5 Renewal Fact Sheet

Certification as an approved Title 5 System Inspector (SI) or Soil Evaluator (SE) is valid for three years. Renewal requirements for these approvals are based upon the date of initial approval. For the first renewal (3 years from the date of initial approval), no training contact hours (TCHs) are required. At the time of the filing of a *subsequent* (2<sup>nd</sup>, 3<sup>rd</sup>, etc.) renewal application (6 years, 9 years, etc. from the date of initial approval), proof of having obtained ten (10) approved TCHs *during the previous three years* must be provided. Please see the chart below for renewal schedule:

TCHs = Training Contact Hours

**PLEASE NOTE** – Those individuals who would like to maintain their Title 5 approval but are *not active in the field* can switch to INACTIVE status. SIs and SEs with INACTIVE status are not required to obtain TCHs; however, they must still pay the \$100 renewal fee and return the completed renewal form. **It is important to note that those switching to INACTIVE status CANNOT conduct Title 5 system inspections or soil evaluations.** A SI or SE with INACTIVE status can change their status to ACTIVE (and return to conducting Title 5 system inspections or soil evaluations) by submitting evidence of having obtained 10 approved training contact hours *within the same calendar year*, completing a change of status form, and paying a \$25 administrative fee.
