Peter Zaykoski

Program Manager

Peter serves as the program manager for NEIWPCC's South Portland Office. He oversees the NPS program, ME Certification and Licensing program, and NEIWPCC's work supporting the Joint Environmental Training Coordinating Committee (JETCC). In this capacity, he develops and delivers environmental training programs and seminars, prepares and reviews reference materials, and provides support to the JETCC Board of Directors.

Prior to moving into the South Portland Program Manager role in May of 2022, Peter served as an Environmental Analyst in NEIWPCC's Water Resources Protection Division since September of 2018. He was the Project Manager for NEIWPCC's work with the Hudson River Estuary Reserve and the Hudson River National Estuarine Research Reserve. Peter also served as NEIWPCC's Quality Assurance Program Manager, overseeing all aspects of quality assurance activities within the organization by reviewing quality assurance project plans, overseeing QA training, and coordinating QA-related activities with the EPA and other state and federal agencies on behalf of NEIWPCC.

Before joining NEIWPCC, Peter provided support to World Education, Inc. ensuring federal audit readiness and coordinating with field teams in Uganda to develop and implement best practices. He has also worked as a project manager for SeaPlan, developing policy guidance and geographic data to support regional and state ocean planning initiatives. He has worked as a research technician at the Duke University Marine Lab, and as a junior coastal advocate for the North Carolina Coastal Federation.

Education:

B.S, Environmental Science, University of Chicago
Master of Environmental Management (with Geospatial Analysis Certificate), Duke University

Professional Affiliations:

New England Water Environment Association
Maine Water Environment Association
