

## Title: Topic and Location Clear

---

Introductory paragraph detailing the where and when, what the water quality issue is and why. Include key partners, as applicable. Include information about why and when the TMDL was created.

\*Update fonts and colors to match the branding of the lead partner of the success story.

\*Estimated word count is 700-800 words.

### Sub-head(s)

Break up text with sub headings as needed for easy skimming; keep paragraphs short and write clearly. This section is often detailing the history of the issue and/or explaining the approach taken.
