YOU'RE INVITED
to attend the symposium as an exhibitor or sponsor

The 12th U.S. Symposium on Harmful Algae will be held on October 27–November 1, 2024 at Holiday Inn by the Bay in Portland, Maine.

This event aims to address the national environmental challenges of harmful algal blooms (HABs) across both freshwater and marine systems. Against the backdrop of Maine's unique ecosystems, we will convene to celebrate advancements in understanding algal bloom ecology. This symposium provides an opportunity to engage in meaningful discussions and explore innovative solutions aimed at preventing and reducing HABs in the United States.

Why should your organization partner with the 11th U.S. Symposium on Harmful Algae?

In one word: visibility! Being an exhibitor or sponsor gives your organization the exciting opportunity to engage and develop a deeper network within the HAB community.

With a guarantee to reach national professionals in the HAB field, this conference provides an excellent marketing vehicle to a targeted and attentive audience.

We expect the symposium to draw approximately 400 attendees, including national representatives and researchers from academia; state, federal, tribal, and municipal governments; the private sector; and watershed organizations.

Please visit our conference website periodically for the most current information on the conference.

Questions?
For questions about attending, sponsoring, or exhibiting at the symposium, please contact Maryann Dugan & Devon Case at HABS@neiwpcc.org.

BASE SPONSORSHIP: $1,250
