Emily Bialowas

Environmental Analyst

Emily serves as the project manager for the Hudson River Estuary Program (HREP) and the Hudson River National Estuarine Research Reserve (HR NERR) and supervises NEIWPCC staff located in New York. Emily also serves as the Quality Assurance Program Manager of NEIWPCC's Quality Program, overseeing all aspects of the program, including QA staff training, NEIWPCC's QAPP review process, and coordinating QA-related activities with EPA and other state and federal agencies on behalf of NEIWPCC. Emily joined NEIWPCC's Water Resource Protection Division in June of 2022.

Prior to joining NEIWPCC, Emily worked with Izaak Walton League of America as the Chesapeake monitoring outreach coordinator and Salt Watch program manager. She coordinated and executed water monitoring program needs including strategic planning, grant management, SOP and QAPP maintenance, outreach and materials development, workshop and webinar coordination, and much more. Emily also coordinated a nationwide crowdsourced chloride monitoring program and worked with local and state groups on chloride pollution management. As a graduate student at UNH, she assisted within the Environment Policy Planning and Sustainability Lab conducting stakeholder assessments on dune management for climate adaptation in coastal communities in New Hampshire.

Education:
