

NPS-50: BASIC & ADVANCED EROSION CONTROL PRACTICES - ONLINE

INITIAL TRAINING TO QUALIFY FOR DEP CERTIFICATION IN EROSION CONTROL PRACTICES

Maine law requires a contractor filling or disturbing soil in the municipal shoreland zone have a DEP-certified individual responsible for erosion and sediment controls on-site each day until the site is permanently stable. Completion of Maine DEP's 8-hour course "Basic & Advanced Erosion Control Practices" is the first requirement of certification.

Name: _____ Tel. _____

Company: _____

Mailing Address: _____

City/Town: _____ State: _____ Zip: _____

E-mail Address: _____

For new Certifications, complete each module by clicking on the link in the table below—each course takes about an hour. Upon successful completion of each module, you will receive an emailed certificate with a unique ID number. The ID number can be found in the left margin of the emailed certificate.

Fill in the Certificate ID # for each module under "Enter Certificate ID" in the table. Once all modules have been completed, submit this form (with all module Certificate ID numbers included) and \$75 fee to JETCC at the address found on the bottom of this page (or via email to info@neiwppcc-jetcc.org). Copies of certificates are not necessary, but all Certificate IDs must be included.

CERTIFICATION COURSE - Basic & Advanced Erosion Control Practices Online Fee: \$75.00

All modules below must be completed prior to submission for credit. Click on each course name to begin the module.

Course #	Module Title	Enter Certificate ID	Complete?
