

DEP Online Continuing Education Courses

for individuals Certified in Erosion Control Practices

COURSES QUALIFYING FOR DEP RECERTIFICATION/REINSTATEMENT - CONTINUING EDUCATION HOURS

Maine law requires a contractor filling or disturbing soil in the municipal shoreland zone have a DEP-certified individual responsible for erosion and sediment controls on-site each day until the site is permanently stable. Individuals must complete approved Continuing Education Hours to maintain certification. There is a 6-month grace period for recertification from the expiration date.

Name: _____ Tel. _____

Company: _____

Mailing Address: _____

City/Town: _____ State: _____ Zip: _____

E-mail Address: _____

Each online credit hour will afford you 1 year of re-certification credit, up to a maximum of 8 years.

- RECERTIFICATION** (submitted within 6-month grace period)
- REINSTATEMENT** (of expired certifications)

Please note that additional credit hours are required for expired certifications to be reinstated. To become reinstated, additional Continuing Education Hours will be required and afford you certification until December 31 of that calendar year. Certifications expired less than one year need one credit hour for reinstatement, 1-3 years since expiration requires 2 credits, and 3 credits are needed if expired beyond 3 years (valid until end of calendar year, grace period applies). [How to get Certified/Recertified/Reinstated in Erosion Control Practices](#)

For Recertification and Reinstatement only: Please check the course topic(s) completed and return this form with a copy of your certificate ID#, and applicable course fee to NEIW PCC-JETCC for credit to be applied.
